

Diapers are a basic need no baby should ever have to go without.

But the truth is every day babies and toddlers go without the diapers they need to stay clean and healthy.

1 in 3 U.S. moms suffer from **diaper need**

\$   /wk

\$   /mo

Diapers cost **\$18 per week**, or **\$72 per month**, on average per child

Of those in need, 3 in 5 miss work or school due to a lack of sufficient diapers to send their child to child care, day care or early education programs.

Lack of diapers forces many parents to change their baby's diaper less frequently, leaving their child in a soiled diaper longer than is appropriate. This often leads to diaper rash, and may cause other infections.
